

CORRECTIONS

In the Clinical Image entitled “Presentation of mantle cell lymphoma with symptoms of prostatism” published in the November 2013 issue (Atay MH, Kelkitli E, Alici O, et al. *Pol Arch Med Wewn.* 2013; 123: 643-644), the article type should be specified as Clinical Image and not Original Article. The article is correct at www.pamw.pl.

In the Review Article entitled “New insights into the molecular diagnosis and management of heritable thoracic aortic aneurysms and dissections” published in the December 2013. (Campens L, Renard M, Callewaert B, et al. *Pol Arch Med Wewn.* 2013; 123: 693-700), Figure 2 contains an error. TGF β binds to TGF β RII, which has been misspelled as TGF β RI (the receptor on the right-hand side). TGF β RI on the left-hand side is correct. The article is correct at www.pamw.pl.

In the Original Article entitled “Hepatocyte growth factor as a long-term predictor for total and cardiovascular mortality in patients on peritoneal dialysis” published in the September 2013 issue (Janda K, Krzanowski M, Dumnicka P, et al. *Pol Arch Med Wewn.* 2013; 123: 453-459), the date of the online publication on page 453 should have read August 27, 2013 rather than April 26, 2013 and, on page 459, it should have read 27.08.2013 rather than 26.04.2013. The article is correct at www.pamw.pl.

In the Original Article entitled “STAT3 rs3816769 polymorphism correlates with gene expression level and may predispose to nonsmall cell lung cancer: a preliminary study” published in the December 2013 issue (Domańska D, Antczak A, Pastuszek-Lewandoska D, et al. *Pol Arch Med Wewn.* 2013; 123: 672-679), the dates of submission, acceptance, and online publication have been provided incorrectly and should have read August 20, 2013, December 3, 2013, and December 5, 2013, respectively, on page 672, and 20.08.2013, 03.12.2013, and 05.12.2013, respectively, on page 679. The article is correct at www.pamw.pl.

In the Original Article entitled “Fluid resuscitation in severe sepsis and septic shock: systematic description of fluids used in randomized trials” published in the November 2013 issue (Rochwerg B, Włodarczyk A, Szczeklik W, et al. *Pol Arch Med Wewn.* 2013; 123: 603-608), in Acknowledgments on page 606, the name of the supporting institution should have read “Hamilton Chapter of the Canadian Intensive Care Foundation” rather than “the Canadian Intensive Care Foundation” alone. The article is correct at www.pamw.pl.
