

## CORRECTIONS

In the Review Article entitled “Therapeutic manipulation of the ductus arteriosus: current options and future prospects” published in the January-February 2013 issue (Cocconi F. *Pol Arch Med Wewn.* 2014; 124: 58-64), the following note was added on page 62: “A paper has recently been published that reaffirms the prime role of EP4-mediated PGE2 action in remodeling of the duct.[65] This PGE2/EP4 signaling is known to be located in the muscle.[66]” Two references were added on page 63: Yokoyama et al. *Circulation*. 2014 and Gruzdev et al. *Prostaglandins Other Lipid Mediat.* In the “Acknowledgements” section on page 62, the name “Scebba” was misspelled as “Scebbe”. In reference 60, the first name initial for Yokoyama should read “U” and the last page should read 1892. The article is correct at [www.pamw.pl](http://www.pamw.pl).
