In the Research Letter entitled "Is there a relationship between exercise-induced endothelial progenitor cell mobilization and cytokine concentrations in patients with premature coronary heart?" published in the April 2015 issue (Każmierski M, Tendera M, Podolecka E, et al. *Pol Arch Med Wewn.* 2015; 125: 305-307), the title should read „Is there a relationship between exercise-induced endothelial progenitor cell mobilization and cytokine concentrations in patients with premature coronary heart disease” rather than „Is there a relationship between exercise-induced endothelial progenitor cell mobilization and cytokine concentrations in patients with premature coronary heart”.
