*Table S1. Results of head-up tilt test (HUTT) and classification of positive test results according to VASIS classification*

	HUTT positive	HUTT negative	HUTT doubtful	Cardiodepressive type	Mixed type	Vasodepressive type
Number of people	32 (80%)	3 (7.5%)	5 (12.5%)	14 (44%)	18 (56%)	0 (0%)

*Figure S1. COG test*

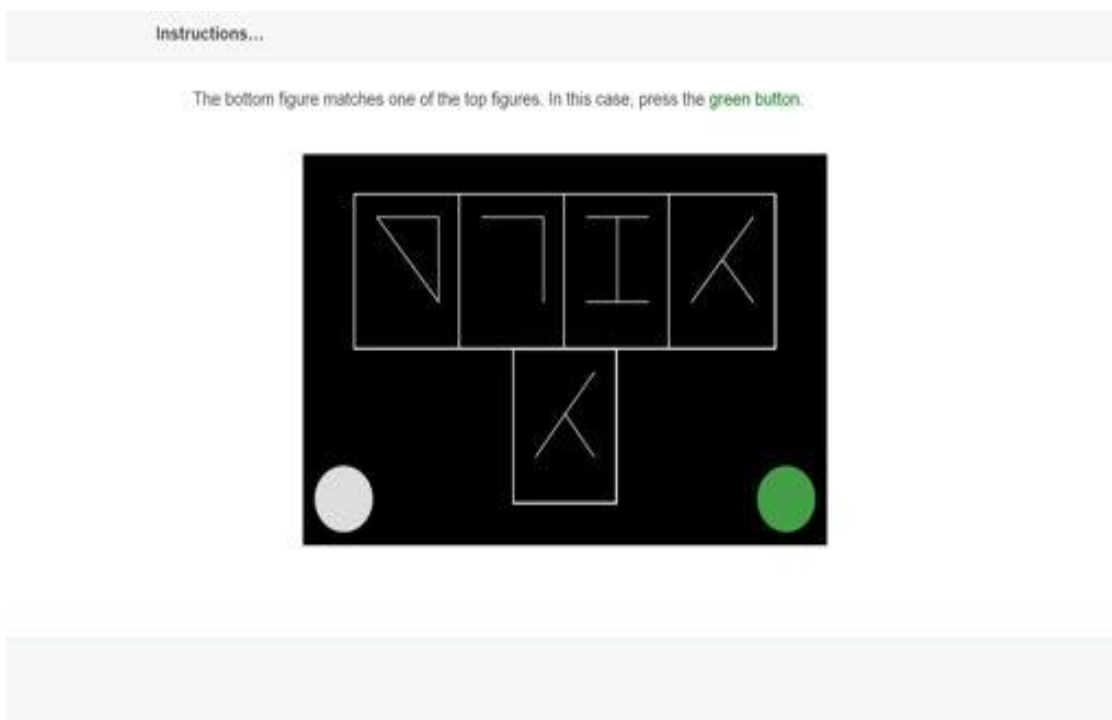

Figure S2. CORSI test

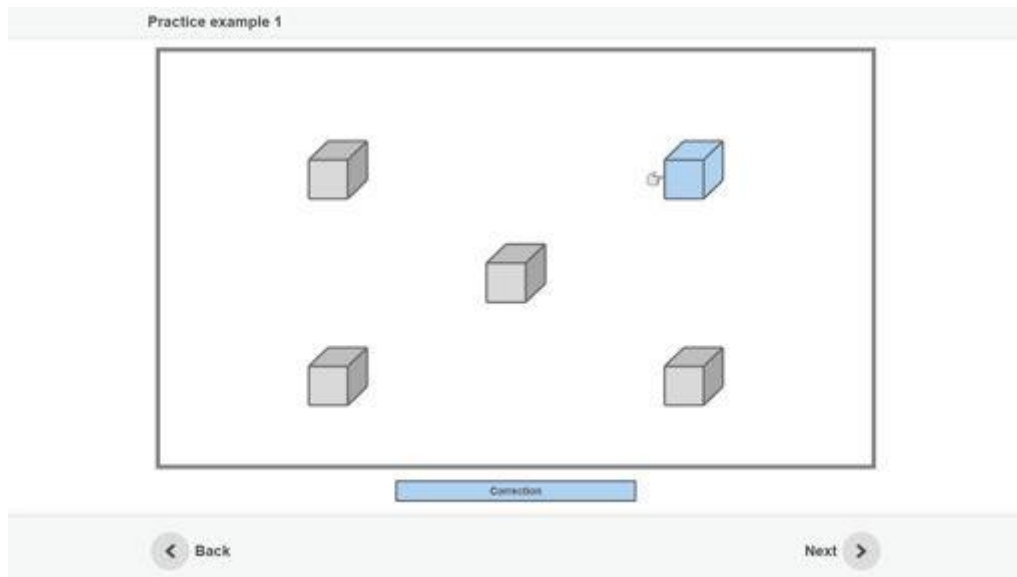

Figure S3. DAUF test

Figure S1. Mean time of correct reactions in the DAUF test in the study group and the control group. Horizontal line = mean value.

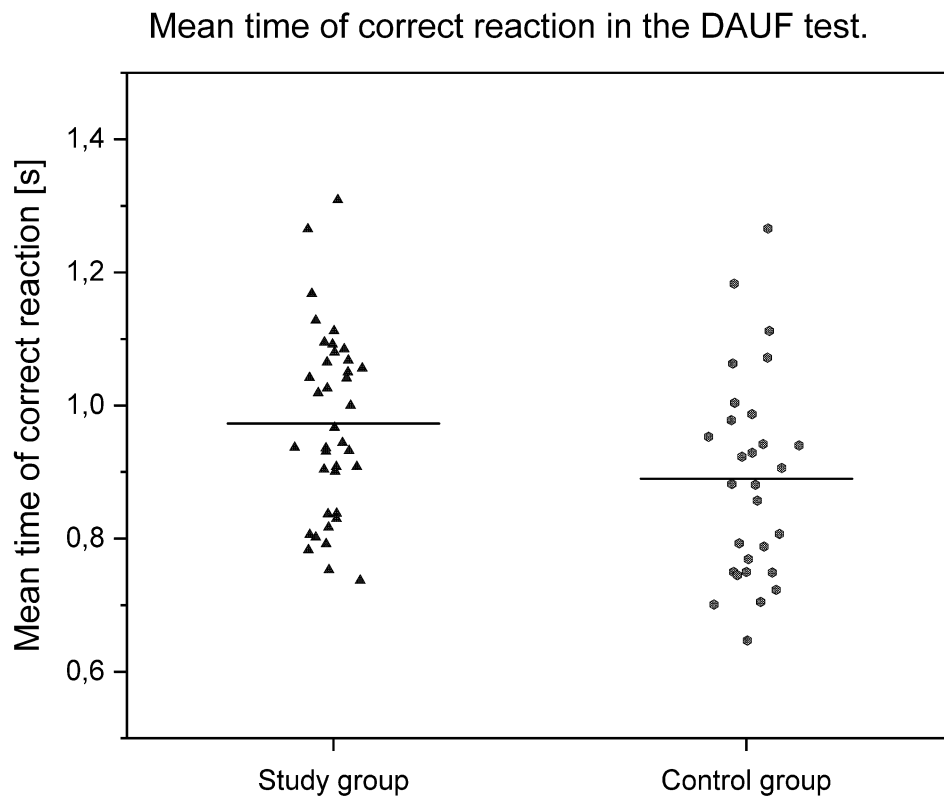

Figure S2. The sum of correct answers in the DAUF test, percentile, in the study group and the control group. Horizontal line = median value.
