Table S1 Laboratory findings – patient's vs normal results.

Parameters	Patient's results [unit]	Normal range [unit]
LH	0.60 mIU/ml	15.90-54.0 mIU/ml
TSH	0.100 mIU/L	0.55-4.78 mIU/L
fT3	1.60 pg/ml	2.30-4.20 pg/ml
fT4	0.71 ng/dl	0.89-1.76 ng/dl
PRL	53.50 ng/ml	1.80-20.30 ng/ml
ACTH	27.14 pg/ml	7.20-63.60 pg/ml
24-hour urine cortisol test	180 ug/day	55.50-286.00 ug/day
Urine density	<1.005 g/ml	1.012-1.026
24-houre urine volume	5.800 L	-
Serum osmolality	303 mOsm/kg	280-295 mOsm/kg

LH – luteinizing hormone, TSH – thyroid stimulating hormone, fT3 – free triiodothyronine, fT4 – free thyroxine, PRL – prolactin, ACTH – adrenocorticotrophic hormone.
