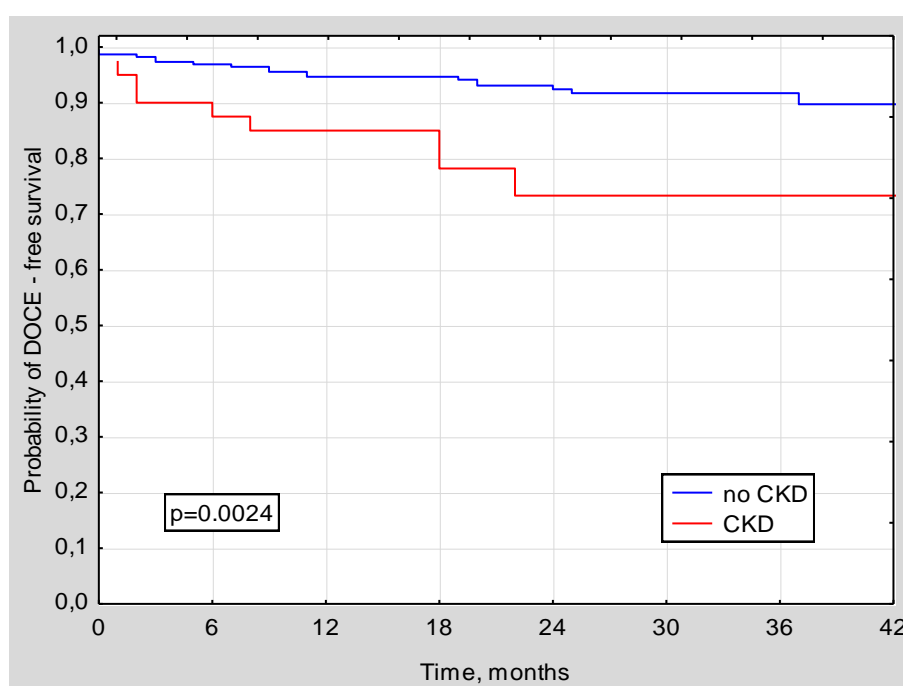

Figure S1 Kaplan – Meier curves for DOCE and chronic kidney disease. CKD – chronic kidney disease; DOCE - device-oriented composite endpoint.

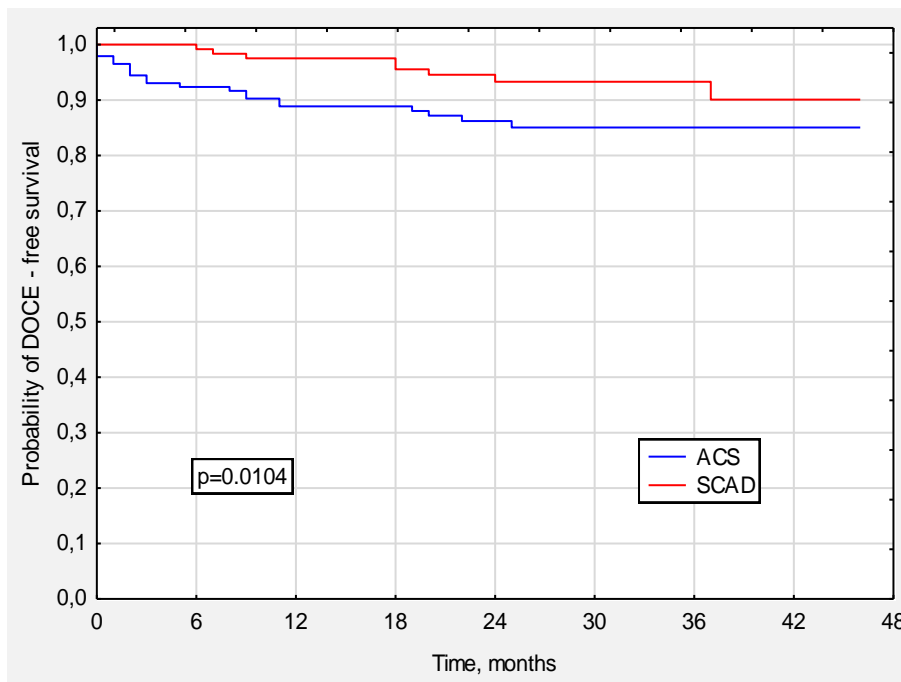

Figure S2 Kaplan – Meier curves for DOCE and clinical presentation. ACS – acute coronary syndrome; DOCE - device-oriented composite endpoint; SCAD – stable coronary artery disease.

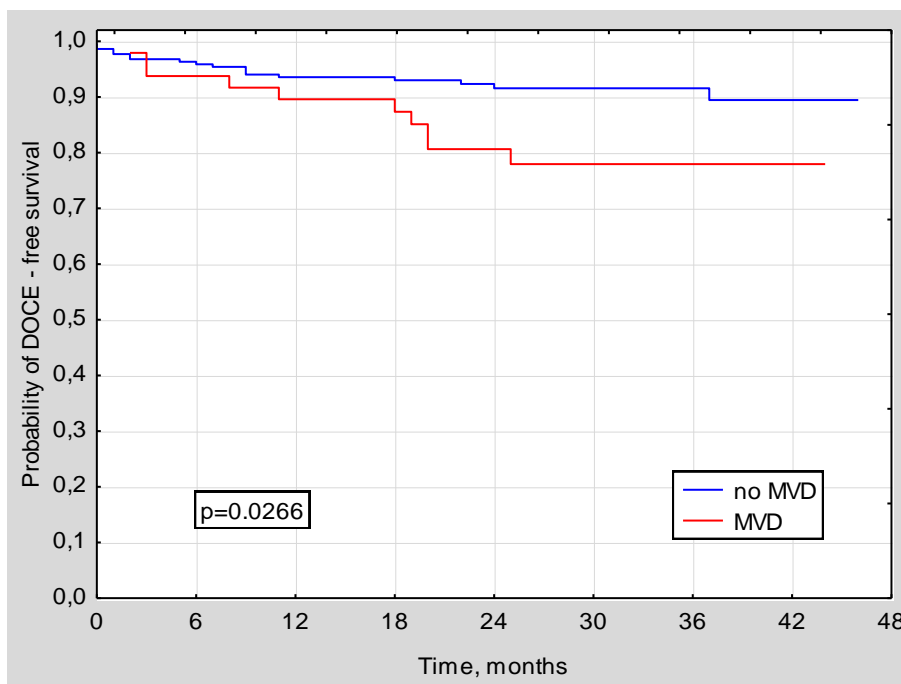

Figure S3 Kaplan – Meier curves for DOCE and multivessel disease. DOCE – device-oriented composite endpoint; MVD – multivessel disease.

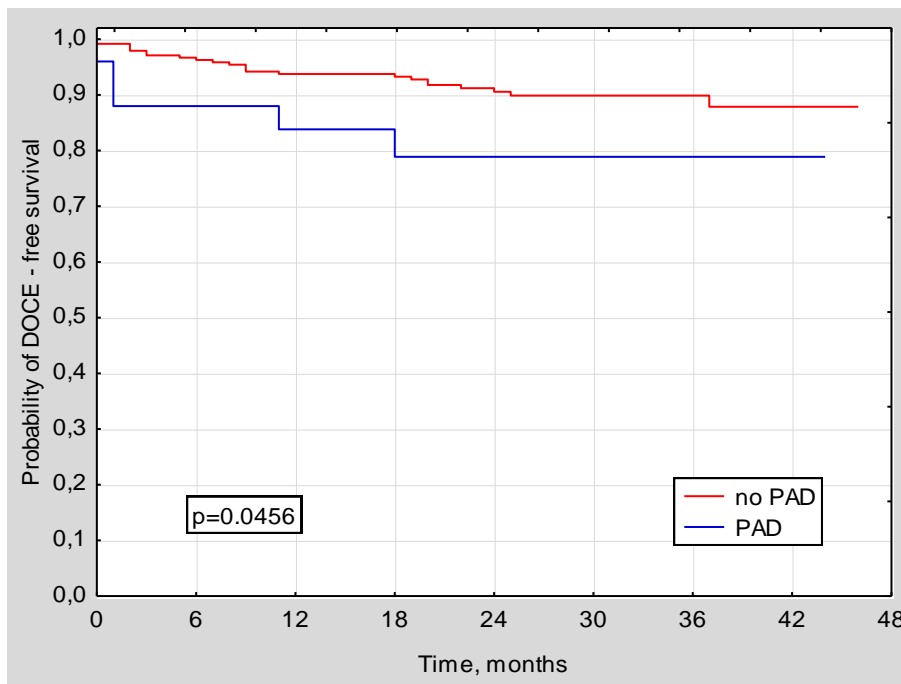

Figure S4 Kaplan – Meier curves for DOCE and peripheral artery disease. DOCE – device-oriented composite endpoint; PAD – peripheral artery disease.

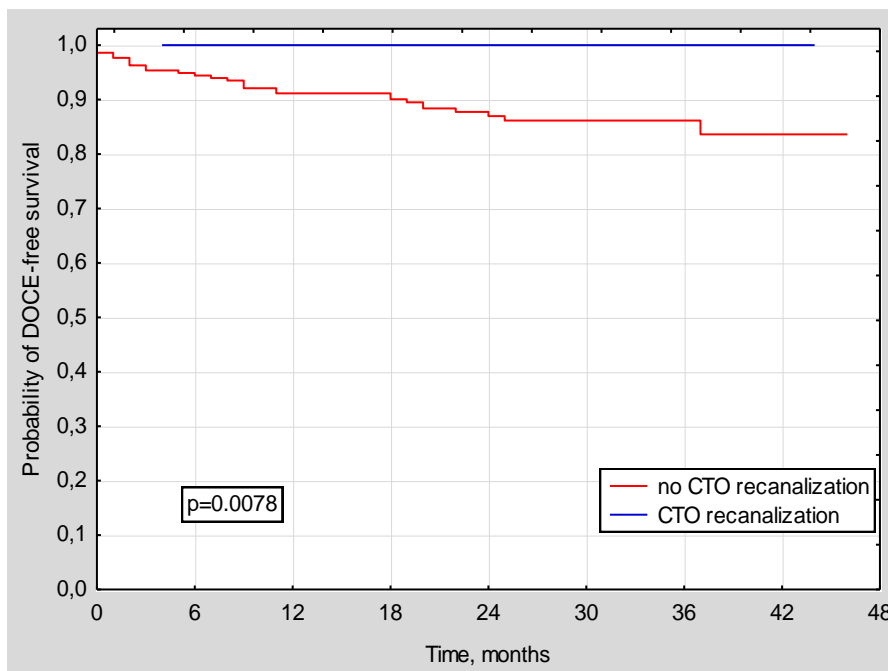

Figure S5 Kaplan – Meier curves for DOCE and chronic total occlusion. CTO – chronic total occlusion; DOCE - device-oriented composite endpoint.

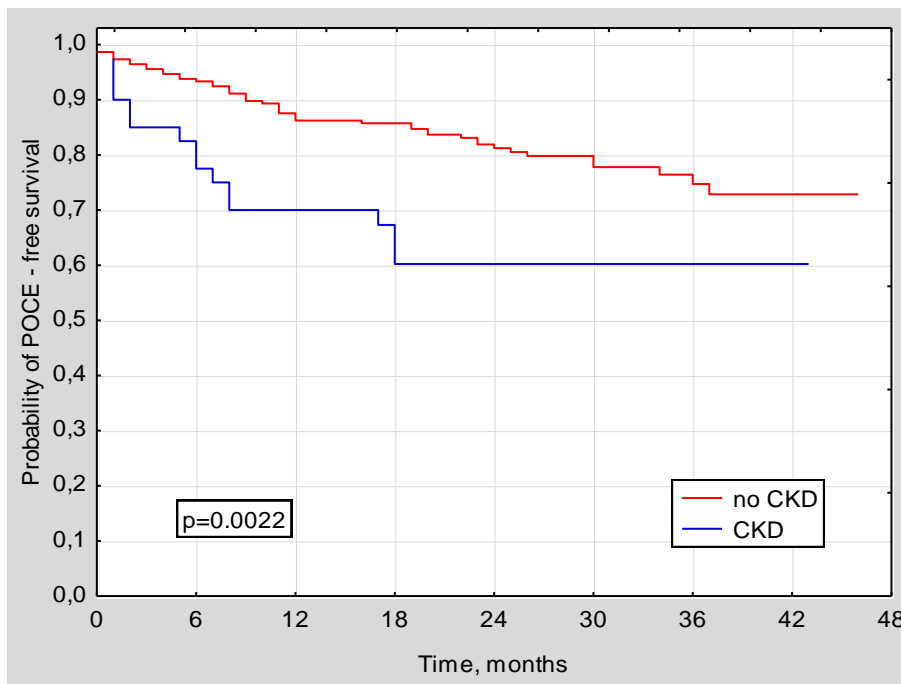

Figure S6 Kaplan – Meier curves for POCE and chronic kidney disease. POCE - patient-oriented composite endpoint; CKD – chronic kidney disease.

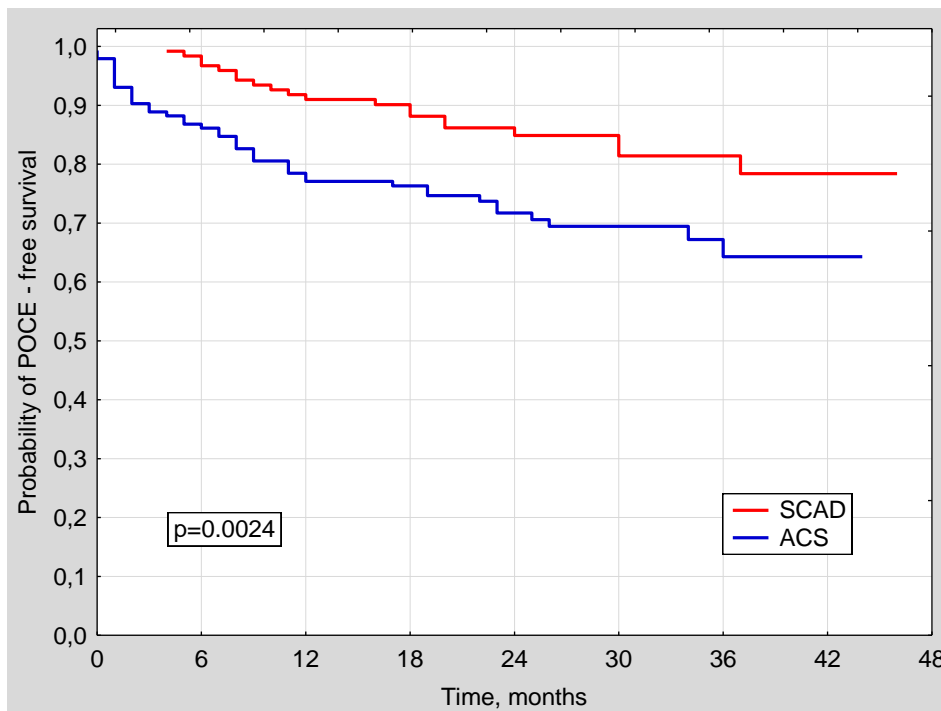

Figure S7 Kaplan – Meier curves for POCE and clinical presentation. ACS – acute coronary syndrome; POCE - patient-oriented composite endpoint; SCAD – stable coronary artery disease.

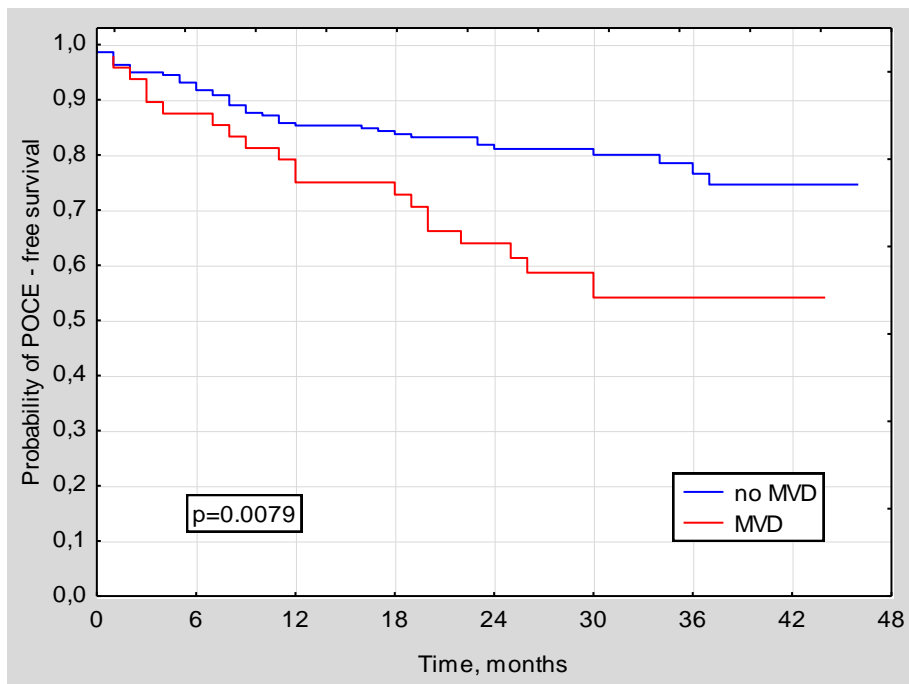

Figure S8 Kaplan – Meier curves for POCE and multivessel disease. MVD – multivessel disease; POCE - patient-oriented composite endpoint.

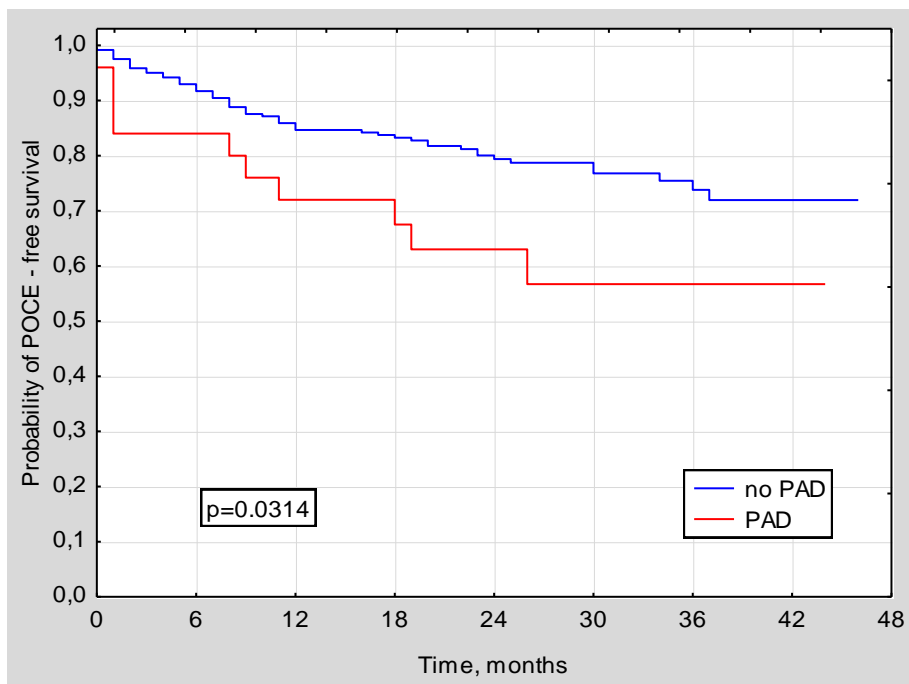

Figure S9 Kaplan – Meier curves for POCE and peripheral artery disease. PAD – peripheral artery disease; POCE - patient-oriented composite endpoint.

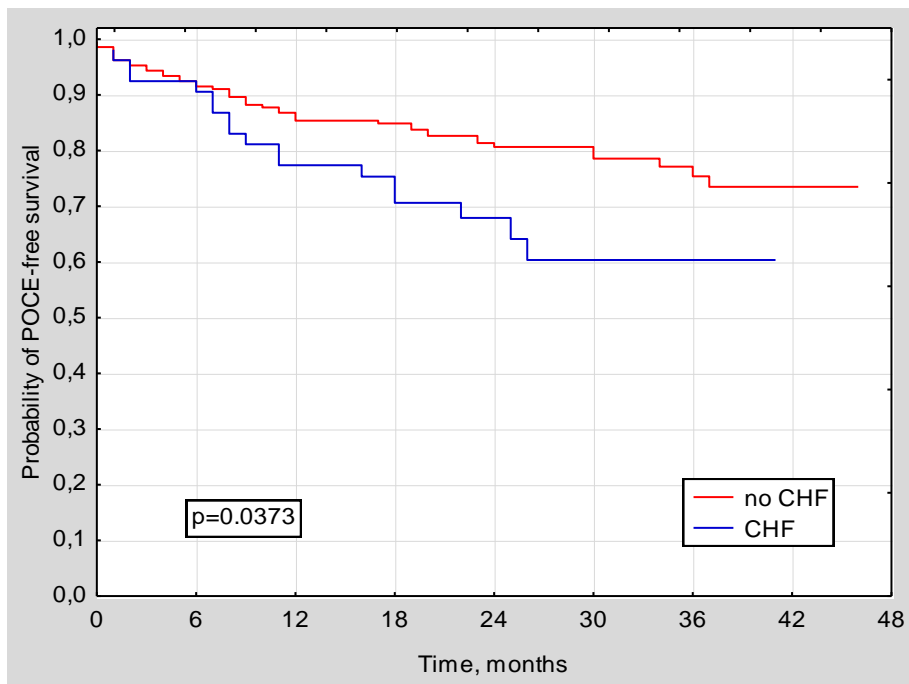

Figure S5 Kaplan – Meier curves for POCE and chronic heart failure. CHF – chronic heart failure; POCE – patient – oriented composite endpoint.
